

Evatik: Stylish value for men

Author: Simon Jones

Published: 03/03/2017

Available in the UK through Ridgway Optical, the Evatik brand from Canadian eyewear producer Westgroupe has released three new frames for men.

Designed for a larger face shape is the E-9139, which features a dropped nose bridge and wide flare and is available in classic hues of matte black, blue and tortoise.

Model E-9140 draws inspiration from the '90s by featuring an intricate laser etched pattern on the bridge and temples combined with a thin titanium profile to create a softer look.

The model is available in black, antique brown and antique grey.
