nouvelle collection de lunettes EVATIK may 2017

EVATIK May 2017 releases

State-of-the-art technology, top quality materials and refined design elements are showcased in the pre-summer EVATIK collection. Combining the latest eyewear and fashion trends with contemporary, masculine color combinations, the new models allow the cosmopolitan modern man to find the perfect balance between comfort and luxury through a clean, understated style that is uniquely EVATIK.

Past meets future in model **E-9150**. With a clubmaster shape reminiscent of 1950's styling, this stainless steel frame features a carbon fiber weave inlaid in the brow line that gives a sleek and masculine twist to its vintage inspiration. The ultra thin profile makes this style extremely lightweight, while providing optimal comfort. E-9150 is offered in Navy Blue, Brown and Gun.

Model **E-9146** is a monoblock stainless steel semi-rimless style that combines minimalistic design with sporty detailing. The step down along the edge of the front, achieved through a precise laser etching technique, creates an interesting design element. Thanks to the subtle two-tone coloring that accentuates the clean lines of its design - Black Red, Gun Black and Navy Grey - this modified square shape conveys a sporty yet absolutely up-to-date look.

Handcrafted with high gloss Japanese acetate, vintage inspired model **E-9147** evokes a modernized 1960's design with its square shape, gradient coloring and dropped bridge. The EVATIK logo is laser engraved on the flat surface of the OBE spring hinge, providing a clean design element and subtle logo branding. E-9147 is available in Grey Smoke, Blue Smoke and Brown Smoke.

EVATIK is produced by WestGroupe; for more information please visit www.evatik.com or www.westgroupe.com.
