PRESENTS

EVATIK

This November, Evatik's release focuses on classic shapes that can effortlessly transition between professional and casual wear. The collection was inspired by the latest Fall menswear trends for a modern edge.

A classic rectangular frame with an exciting flair, E-9245 elevates a timeless silhouette to new heights. Featuring fresh smokey-effect patterns and fun pops of color along the front, this model is certain to be a fan favorite. Linear metal detailing and custom spring hinges integrate into the temples for a sleek design. Exuding masculinity and confidence, this frame is available in a range of matte and shiny finishes in colorways Matte Black Blue, Blue Smoke, and Grey Smoke.

E-9246 with its rounded square shape appeals to the sophisticated wearer. Sleek and elegant, this lightweight stainless steel model is the perfect choice for daily wear. The model features slick detailing including engraving along the rims and striking highlights along its temples. For its technical components, OBE space screws keep the temples tight and secure while its monoblock front eliminates the need for eye rim soldering. Available in Navy Grey, Cocoa Grey, and Charcoal Green.
